Should OER be identified in Meta? The answer was no, it should be identified when ordering textbooks.

The catalog committee has agreed to do 2 addendums, the first addendum will be published August 1st and the second addendum February 1st.

Critical thinking skills are not being identified in the COR's objectives. The default on Meta is to mark them "no" if not checked by the proposer. It is uncertain if the courses will be approved for C-ID. The default on Meta will be changed to "yes" and this will require proposers to uncheck those objectives that do not require critical thinking.
